1. To make your origami bookmark, begin by folding the opposite corners of the square together to make a triangle shape.
2. Now with the flat edge along the bottom, fold the top sheet of the top of the triangle back, so it reaches the flat edge and make a fold line.
3. Next, fold the left and right edges of the triangle to the middle, so they touch the Centre of the flat edge and you have made a kind of envelope shape.
- 4 . Unfold back the left and right edges of the triangle you have just folded .
- 5-6. Fold these pieces upwards, so they reach the top of the triangle.
7. Tuck the left and right flaps over and into the small pocket you have just created to hold them in place.
8. You will now be left with your origami bookmark.
